

AFYA YAKO SIRI YAKO

Ministry of Health Compliance Brief

Your Health, Your Secret

A MOH-Compliant Telemedicine Platform for Kenya

June 2026

Overview

Afya Yako Siri Yako is a fully MOH-compliant telemedicine platform providing anonymous mental health services across Kenya. The system implements professional oversight, data protection, and quality assurance aligned with Ministry of Health standards.

Key Features

- ' KMPDC/CPB verified professionals (100%)
- ' AES-256 encrypted data protection
- ' Incident & complaint management system
- ' Professional supervision tracking (MOH Guideline 9)
- ' Response time SLA monitoring (2-hour default)
- ' Quality assurance metrics & KPI tracking
- ' Configurable data retention & deletion audit trails
- ' Parental consent for minors (under 18)
- ' Kiswahili language support
- ' Mobile-first PWA design

Strategic Impact

- ' Expands Access: Reaches rural/remote areas safely
- ' Ensures Quality: KPIs, supervision, complaints, metrics
- ' Protects Patients: Encryption, verification, incident handling
- ' Supports MOH Goals: Digital health transformation

1. Professional Licensing & Verification

Compliance

- ' All therapists KMPDC Licensed
- ' CPB Verified certification
- ' Real-time verification badges on profiles
- ' Automatic license expiry tracking
- ' Professional credentials displayed to patients

Patient Assurance

Every professional profile displays: KMPDC/CPB badges | Years of experience | Specializations | Ratings | Verified status

2. Incident & Complaint Management

Reporting System

- ' Patient adverse event reporting
- ' Professional complaint filing
- ' Admin investigation dashboard
- ' Status tracking: open !' investigating !' resolved !' closed
- ' Disciplinary actions: warnings, suspensions, terminations
- ' Complete audit trail of all actions

Severity Levels

- Adverse Event: Low, Medium, High, Critical
- Complaint: Minor, Moderate, Severe, Critical
- Near Miss: Low, Medium, High, Critical
- Safety Concern: Low, Medium, High, Critical

Workflow

Report !' Notification !' Investigation !' Resolution !' Disciplinary Action (if needed) !' Documented & Audited

3. Data Protection & Privacy

Encryption & Security

- ' AES-256 encryption for all PHI
- ' End-to-end encrypted sessions
- ' HTTPS encrypted communication
- ' Secure platform only (no WhatsApp/SMS)
- ' Role-based access control
- ' Audit logging of all data access

Data Retention Periods

- Mood Logs: 365 days !' Auto-delete with audit
- Assessments: 365 days !' Auto-delete with audit
- Consultations: Indefinite !' Anonymized after 2 years
- Journal Entries: 365 days !' User-initiated deletion

Deletion Audit Trail: Every deletion logged with entity type, reason, user ID, and timestamp.

4. Professional Supervision & Quality Assurance

MOH Guideline 9 — Mandatory Supervision

- ' Supervision dashboard tracks supervisors & supervisees
- ' Supervision sessions logged with dates, duration, notes
- ' Compliance alerts for unsupervised practitioners
- ' Escalation protocols if supervision missing

Response Time SLA

- Consultation Response: 2 hours (Automated tracking)
- SLA Compliance: 100% target (Admin dashboard)
- Breach Escalation: Automatic (Admin notification)

Quality Metrics Tracked

- ' Client satisfaction scores (0-100%)
- ' Response time performance vs SLA
- ' Session completion rates
- ' Assessment quality scores

5. Child Protection & Accessibility

Safeguarding Minors (Under 18)

- ' Parental consent form required
- ' Age verification at signup
- ' Parent notification options for sensitive cases
- ' Child protection workflows per MOH standards

Language & Accessibility

- ' Kiswahili support (manual + Google Translate)
- ' Mobile-first PWA design
- ' Works on any browser (no app store needed)
- ' Low-bandwidth optimized for rural areas
- ' Offline capability via service worker
- ' WCAG 2.1 accessibility standards

System Infrastructure

- ' HTTPS encrypted communication
- ' 99.8% uptime SLA
- ' Distributed redundant architecture
- ' Regular security audits
- ' Full compliance documentation
